MUSAFIRAH

Women Carpooling Mobile Application

TEST CASE DOCUMENT

Comprehensive Functional & UI Test Cases

Document Version	1.0
Prepared Date	April 10, 2026
Application	Musafirah – Women Carpooling App
Platform	Android / iOS (Flutter)
Test Type	Functional, UI, Integration, Edge Cases
Prepared By	Musafirah QA Team

This document covers all functional, UI, and integration test cases for the Musafirah Women Carpooling Mobile Application. Test cases are organized by module and role (Passenger, Driver, Admin).

TABLE OF CONTENTS

1. Splash Screen & App Launch
2. User Role Selection
3. Authentication – Login (Email & Phone)
4. Passenger Registration & Signup
5. Driver Registration & Signup
6. Document Verification – CNIC
7. Document Verification – Driver License
8. Document Verification – Vehicle Info
9. Selfie Verification
10. Passenger Dashboard
11. Driver Dashboard
12. Ride Booking Flow (Passenger)
13. Ride Acceptance Flow (Driver)
14. Driver Navigation & Trip Completion
15. Real-Time Chat
16. Passenger Profile & Edit Profile
17. Driver Profile
18. Wallet & Transaction History
19. Account Status – Pending / Rejected / Blocked
20. Admin – Login & Dashboard
21. Admin – Driver Management
22. Admin – Rider Management
23. Terms & Conditions / Privacy Policy
24. Edge Cases & Error Handling

1. Splash Screen & App Launch

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-SP-01	App launches and splash screen is displayed	App installed on device	1. Open Musafirah app	Musafirah logo and tagline appear with animation	High	Pass
TC-SP-02	Auto-navigation after 3 seconds	Splash screen displayed	1. Wait 3 seconds on splash screen	App navigates automatically to User Choice screen	High	Pass
TC-SP-03	Tagline text is correct	App launched	1. Observe splash screen text	Tagline reads: 'Your safe journey, synchronized'	Low	Pass

2. User Role Selection

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-UC-01	Three role cards displayed	User on User Choice screen	1. Navigate to User Choice screen	Passenger, Driver, and Admin cards are visible	High	Pass
TC-UC-02	Passenger Login button navigates correctly	User on User Choice screen	1. Tap 'Log In' on Passenger card	Navigates to Email Password Login screen with 'Passenger' role label	High	Pass
TC-UC-03	Driver Login button navigates correctly	User on User Choice screen	1. Tap 'Log In' on Driver card	Navigates to Email Password Login screen with 'Driver' role label	High	Pass
TC-UC-04	Passenger Sign Up button navigates correctly	User on User Choice screen	1. Tap 'Sign Up' on Passenger card	Navigates to Passenger Email Signup screen	High	Pass
TC-UC-05	Driver Sign Up button navigates correctly	User on User Choice screen	1. Tap 'Sign Up' on Driver card	Navigates to Driver Email Signup screen	High	Pass
TC-UC-06	Admin card has no Sign Up button	User on User Choice screen	1. Observe Admin card	Only 'Log In' button visible; no 'Sign Up' button on Admin card	Medium	Pass
TC-UC-07	Admin Login button navigates correctly	User on User Choice screen	1. Tap 'Log In' on Admin card	Navigates to Admin Login screen	High	Pass
TC-UC-08	Entry animations play on screen load	User navigated from Splash	1. Observe cards on screen entry	Cards slide and fade in smoothly	Low	Pass

3. Authentication – Login (Email & Phone)

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-AU-01	Login screen shows Passenger role badge	Tapped Passenger login from User Choice	1. Observe header badge on Email Login screen	Badge shows 'Passenger Login' with person icon	High	Pass
TC-AU-02	Login screen shows Driver role badge	Tapped Driver login from User Choice	1. Observe header badge on Email Login screen	Badge shows 'Driver Login' with car icon	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-AU-03	Welcome text is role-specific	Role passed to Email Login screen	1. Observe welcome heading	Shows 'Welcome Aboard, Passenger!' or 'Welcome Aboard, Driver!'	High	Pass
TC-AU-04	Empty email field shows validation error	Email Login screen open	1. Leave email empty 2. Tap Log In	Validation error: 'Email is required'	High	Pass
TC-AU-05	Empty password field shows validation error	Email Login screen open	1. Enter valid email 2. Leave password empty 3. Tap Log In	Validation error: 'Password is required'	High	Pass
TC-AU-06	Wrong credentials show error snackbar	Email Login screen open	1. Enter wrong email/password 2. Tap Log In	Red snackbar appears with Firebase error message	High	Pass
TC-AU-07	Valid passenger credentials navigate to Passenger Dashboard	Approved passenger account exists	1. Enter correct email and password 2. Tap Log In	Navigates to Passenger Dashboard screen	High	Pass
TC-AU-08	Valid driver credentials navigate to Driver Dashboard	Approved driver account exists	1. Enter correct driver email and password 2. Tap Log In	Navigates to Driver Dashboard screen	High	Pass
TC-AU-09	Password visibility toggle works	Email Login screen open	1. Enter password 2. Tap eye icon	Password text toggles between hidden and visible	Medium	Pass
TC-AU-10	Phone login – empty phone shows error	Phone Login screen open	1. Leave phone number empty 2. Tap Send OTP	Validation error shown for empty phone	High	Pass
TC-AU-11	Phone login – invalid phone (< 7 digits) shows error	Phone Login screen open	1. Enter 5-digit number 2. Tap Send OTP	Validation error: minimum 7 digits required	High	Pass
TC-AU-12	Phone login – non-numeric input shows error	Phone Login screen open	1. Enter letters in phone field 2. Tap Send OTP	Validation error: digits only	High	Pass
TC-AU-13	Valid phone number sends OTP	Phone Login screen open	1. Enter valid 10-digit phone 2. Tap Send OTP	OTP field appears; success message shown	High	Pass
TC-AU-14	OTP verification with valid 6-digit code	OTP sent successfully	1. Enter correct 6-digit OTP 2. Tap Verify	Navigates to appropriate dashboard	High	Pass
TC-AU-15	OTP with wrong code shows error	OTP sent successfully	1. Enter wrong OTP 2. Tap Verify	Error snackbar shown	High	Pass
TC-AU-16	Resend OTP button works	OTP already sent	1. Tap 'Resend OTP'	New OTP is sent, confirmation shown	Medium	Pass
TC-AU-17	Back button returns to previous screen	Any login screen open	1. Tap back arrow	Returns to previous screen without errors	Medium	Pass
TC-AU-18	Loading spinner shown during login	Valid credentials entered	1. Tap Log In and observe button	Button replaced by loading spinner during authentication	Medium	Pass

4. Passenger Registration & Signup

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-PS-01	Empty name field shows validation error	Passenger Signup screen open	1. Leave name empty 2. Tap Sign Up	Validation error: name is required	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-PS-02	Invalid email format shows error	Passenger Signup screen open	1. Enter 'notanemail' 2. Tap Sign Up	Validation error: invalid email format	High	Pass
TC-PS-03	Password shorter than 6 chars shows error	Passenger Signup screen open	1. Enter password 'abc' 2. Tap Sign Up	Validation error: minimum 6 characters	High	Pass
TC-PS-04	Mismatched passwords show error	Passenger Signup screen open	1. Enter password 'pass123' 2. Enter confirm 'pass456' 3. Tap Sign Up	Validation error: passwords do not match	High	Pass
TC-PS-05	Duplicate email shows Firebase error	Email already registered	1. Enter existing email 2. Fill other fields 3. Tap Sign Up	Error snackbar: email already in use	High	Pass
TC-PS-06	Valid data creates account and navigates to CNIC	New unique email	1. Fill all valid fields 2. Tap Sign Up	Account created; navigates to CNIC Verification screen	High	Pass
TC-PS-07	Account is created with 'pending' status	Signup completed successfully	1. Check Firestore Passengers collection after signup	Status field = 'pending'	High	Pass

5. Driver Registration & Signup

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-DS-01	Empty name field shows validation error	Driver Signup screen open	1. Leave name empty 2. Tap Sign Up	Validation error: name is required	High	Pass
TC-DS-02	Invalid email shows error	Driver Signup screen open	1. Enter invalid email 2. Tap Sign Up	Validation error: invalid email format	High	Pass
TC-DS-03	Empty phone shows error	Driver Signup screen open	1. Leave phone empty 2. Tap Sign Up	Validation error: phone is required	High	Pass
TC-DS-04	Password shorter than 6 chars shows error	Driver Signup screen open	1. Enter short password 2. Tap Sign Up	Validation error: minimum 6 characters	High	Pass
TC-DS-05	Valid data creates account and navigates to License	New unique email	1. Fill all valid fields 2. Tap Sign Up	Account created; navigates to Driver License screen	High	Pass
TC-DS-06	Driver account created with 'pending' status	Signup completed	1. Check Firestore Drivers collection	Status field = 'pending'	High	Pass
TC-DS-07	Duplicate email shows Firebase error	Email already registered	1. Enter existing email 2. Tap Sign Up	Error snackbar: email already in use	High	Pass

6. Document Verification – CNIC

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-CN-01	Upload front CNIC image triggers OCR	CNIC screen open	1. Upload front CNIC image from gallery	OCR extracts name, DOB, CNIC number and auto-fills fields	High	Pass
TC-CN-02	Upload back CNIC image	Front CNIC uploaded	1. Upload back CNIC image	Back image displayed; no errors	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-CN-03	CNIC number extracted in correct format	Clear CNIC image uploaded	1. Upload CNIC front image 2. Check CNIC number field	CNIC number follows format: XXXXX-XXXXXXX-X	High	Pass
TC-CN-04	Dates extracted correctly	Clear CNIC image uploaded	1. Upload CNIC front image 2. Check date fields	Issue date and expiry date auto-filled correctly	High	Pass
TC-CN-05	Submitting without front image shows error	CNIC screen open	1. Skip front CNIC upload 2. Tap Submit	Error: front CNIC image is required	High	Pass
TC-CN-06	Emergency relation dropdown shows options	CNIC screen open	1. Tap Emergency Relation dropdown	Options: Family member, Spouse, Friend	Medium	Pass
TC-CN-07	Submitting with all valid fields saves to Firestore	All fields filled	1. Complete all fields 2. Tap Submit	Data saved to Firestore; navigates to Selfie screen	High	Pass
TC-CN-08	registrationStep updated to 'cnic_completed'	CNIC submission successful	1. Check Firestore after CNIC submission	registrationStep = 'cnic_completed'	High	Pass
TC-CN-09	Logout shows confirmation dialog	CNIC screen open	1. Tap logout icon	Confirmation dialog: 'Are you sure you want to logout?'	Medium	Pass

7. Document Verification – Driver License

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-DL-01	Upload front license image triggers OCR	Driver License screen open	1. Upload front license image from gallery	OCR extracts license number and expiry date; fields auto-filled	High	Pass
TC-DL-02	License number extracted in correct format	Clear license image uploaded	1. Upload license front 2. Check license number field	Format: XXXXX-XXXXXXX-X#XXX	High	Pass
TC-DL-03	Upload back license image	Front license uploaded	1. Upload back license image	Back image displayed without errors	High	Pass
TC-DL-04	Submit without front image shows error	License screen open	1. Tap Submit without uploading front	Validation error: front license image required	High	Pass
TC-DL-05	Valid license submission navigates to Vehicle Info	Both license images uploaded	1. Upload both images 2. Tap Next	Navigates to Driver Vehicle Info screen	High	Pass

8. Document Verification – Vehicle Info

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-VI-01	Submit without plate number shows error	Vehicle Info screen open	1. Leave plate number empty 2. Tap Submit	Validation error: plate number is required	High	Pass
TC-VI-02	Submit without car photo shows error	Vehicle Info screen open	1. Skip car photo upload 2. Tap Submit	Validation error: car image is required	High	Pass
TC-VI-03	Car capacity defaults to 4	Vehicle Info screen open	1. Observe capacity field on load	Capacity field pre-filled with '4'	Low	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-VI-04	Valid vehicle data saves to Firestore	All fields filled including plate and photo	1. Fill car model, year, color, plate, capacity 2. Upload photo 3. Tap Submit	Vehicle data saved; navigates to CNIC screen	High	Pass
TC-VI-05	registrationStep updated to 'vehicle_completed'	Vehicle submission successful	1. Check Firestore after vehicle submission	registrationStep = 'vehicle_completed'	High	Pass
TC-VI-06	Car image uploaded from gallery	Vehicle Info screen open	1. Tap upload car photo 2. Select from gallery	Image appears in preview	Medium	Pass

9. Selfie Verification

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-SV-01	Camera preview opens on screen load	Selfie screen open with camera permission	1. Navigate to Selfie screen	Front-facing camera preview displayed	High	Pass
TC-SV-02	Submitting without selfie shows error	Selfie screen open	1. Tap Submit without taking/uploading selfie	Validation error: selfie image required	High	Pass
TC-SV-03	Capture from camera works	Camera permission granted	1. Tap camera button to take selfie	Selfie captured and displayed in circular preview	High	Pass
TC-SV-04	Upload from gallery works	Selfie screen open	1. Tap gallery option 2. Select image	Selected image displayed in preview	High	Pass
TC-SV-05	Successful submission saves to Firestore	Selfie captured	1. Capture selfie 2. Tap Submit	Selfie saved; isVerified = false; navigates to dashboard	High	Pass
TC-SV-06	Tips section is visible	Selfie screen open	1. Observe tips panel	Tips shown: good lighting, look at camera, no glasses, full face	Low	Pass
TC-SV-07	Logout shows confirmation dialog	Selfie screen open	1. Tap logout	Confirmation dialog appears before logging out	Medium	Pass

10. Passenger Dashboard

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-PD-01	Dashboard loads with map and user location	Approved passenger logged in, location permission granted	1. Open passenger dashboard	Map shows current location pin; welcome message visible	High	Pass
TC-PD-02	Pending user redirected to Pending screen	Passenger with status 'pending' logs in	1. Login as pending passenger	Redirected to User Pending screen automatically	High	Pass
TC-PD-03	Blocked user redirected to Pending screen	Passenger with status 'blocked' logs in	1. Login as blocked passenger	Redirected to User Pending screen with blocked message	High	Pass
TC-PD-04	Destination input shows autocomplete suggestions	Passenger dashboard open	1. Tap destination field 2. Type a location name	Autocomplete suggestions displayed from OSM	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-PD-05	Fare estimate calculated and displayed	Origin and destination entered	1. Enter pickup and destination 2. Observe fare display	Estimated fare shown in PKR	High	Pass
TC-PD-06	Popular destinations carousel is displayed	Dashboard loaded	1. Scroll home page	Popular destination cards visible and scrollable	Medium	Pass
TC-PD-07	Bottom navigation – Wallet tab works	Passenger dashboard open	1. Tap Wallet tab in bottom navigation	Navigates to Wallet History screen	High	Pass
TC-PD-08	Bottom navigation – Profile tab works	Passenger dashboard open	1. Tap Profile tab	Navigates to Rider Profile screen	High	Pass
TC-PD-09	'Find Ride' with destination navigates to driver list	Destination entered	1. Enter destination 2. Tap Find/Book Ride	Navigates to Passenger Ride Selection screen	High	Pass

11. Driver Dashboard

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-DD-01	Dashboard loads with map and driver location	Approved driver logged in, location permission granted	1. Open driver dashboard	Map displayed with current driver location pin	High	Pass
TC-DD-02	Pending driver redirected to Pending screen	Driver with status 'pending'	1. Login as pending driver	Redirected to User Pending screen	High	Pass
TC-DD-03	Recent trips list loads	Driver has past trips	1. Open driver dashboard	Recent trips displayed with dates and fares	Medium	Pass
TC-DD-04	Ride Requests tab navigates correctly	Driver dashboard open	1. Tap 'Requests' in bottom nav	Navigates to Driver Ride Requests screen	High	Pass
TC-DD-05	Active Rides tab navigates correctly	Driver dashboard open	1. Tap 'Active Rides' in bottom nav	Navigates to Driver Active Rides screen	High	Pass
TC-DD-06	Wallet tab navigates correctly	Driver dashboard open	1. Tap Wallet tab	Navigates to Driver Wallet screen	High	Pass
TC-DD-07	Profile tab navigates correctly	Driver dashboard open	1. Tap Profile tab	Navigates to Driver Profile screen	High	Pass
TC-DD-08	Start location autocomplete works	Driver dashboard open	1. Type in start location field	OSM autocomplete suggestions appear	High	Pass

12. Ride Booking Flow (Passenger)

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-RB-01	Ride Selection screen shows available drivers	Destination entered, navigate to Ride Selection	1. Set pickup and destination 2. Tap find ride	List of nearby available drivers displayed	High	Pass
TC-RB-02	Drivers filtered by proximity (within 15 km)	Ride Selection screen open	1. Observe driver list	Only drivers within 15 km of pickup are shown	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-RB-03	Driver card shows name, rating, vehicle info	Drivers listed on Ride Selection	1. Observe driver cards	Each card shows driver name, star rating, vehicle model, plate	Medium	Pass
TC-RB-04	Selecting a driver opens Ride Booking screen	Driver list visible	1. Tap on a driver card	Navigates to Ride Booking screen with driver details	High	Pass
TC-RB-05	Ride Booking screen shows map with route	Ride Booking screen open	1. Observe map on Ride Booking screen	Map shows pickup and dropoff markers with route	High	Pass
TC-RB-06	Estimated fare displayed on booking screen	Ride Booking screen open	1. Observe fare section	Fare amount in PKR is clearly displayed	High	Pass
TC-RB-07	Confirm Ride navigates to Ride Confirmed screen	Ride Booking screen open	1. Tap 'Confirm Ride' button	Navigates to Ride Confirmed screen	High	Pass
TC-RB-08	Cancel ride on selection screen shows confirmation	Ride Selection screen open	1. Tap Cancel button	Confirmation dialog appears before cancelling	High	Pass
TC-RB-09	No available drivers shows empty state	No drivers in area	1. Enter remote destination with no drivers	Empty state message shown	Medium	Pass
TC-RB-10	Ride Confirmed screen shows driver details	Ride confirmed	1. Observe Ride Confirmed screen	Driver name, photo, rating, vehicle and route info visible	High	Pass
TC-RB-11	Track Ride button opens live tracking	Ride Confirmed screen open	1. Tap 'Track Ride'	Navigates to Passenger Live Tracking screen	High	Pass
TC-RB-12	Cancel confirmed ride shows dialog	Ride Confirmed screen open	1. Tap Cancel Ride	Confirmation dialog; ride cancelled in Firestore on confirm	High	Pass

13. Ride Acceptance Flow (Driver)

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-RA-01	Ride Requests screen shows nearby passengers	Driver on Ride Requests screen	1. Navigate to Ride Requests screen	List of nearby ride requests displayed	High	Pass
TC-RA-02	Requests filtered within 15 km of driver	Ride Requests screen open	1. Observe request list	Only passengers within proximity are shown	High	Pass
TC-RA-03	Accept ride updates driver capacity	Ride request visible	1. Tap Accept on a ride request	Driver capacity decremented; ride accepted in Firestore	High	Pass
TC-RA-04	Accept ride navigates to Navigation screen	Ride accepted	1. Accept a ride request	Navigates to Driver Navigation screen with route	High	Pass
TC-RA-05	Decline ride removes it from list	Ride request visible	1. Tap Decline on a request	Request removed from driver's list	Medium	Pass
TC-RA-06	Driver with zero capacity cannot accept rides	Driver available_seats = 0	1. Try to accept a ride	Error shown: no available seats	High	Pass

14. Driver Navigation & Trip Completion

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-DN-01	Navigation screen shows route on map	Driver accepted a ride	1. Observe map on Navigation screen	Map shows start and end points with route drawn	High	Pass
TC-DN-02	Navigation steps displayed	Navigation screen open	1. Observe step indicator	Turn-by-turn steps shown with current step highlighted	High	Pass
TC-DN-03	Call passenger button works	Navigation screen open	1. Tap call button	Device dialer opens with passenger phone number	High	Pass
TC-DN-04	Chat button opens chat screen	Navigation screen open	1. Tap chat icon	Navigates to Chat screen with passenger name	High	Pass
TC-DN-05	SOS button shows emergency dialog	Navigation screen open	1. Tap SOS button	Emergency warning dialog appears	High	Pass
TC-DN-06	Complete trip navigates to Payment screen	Navigation screen open	1. Tap 'Complete Trip' or finish navigation	Navigates to Driver Payment screen with fare	High	Pass
TC-DN-07	Payment screen shows correct fare	Trip completed, on Payment screen	1. Observe fare on Payment screen	Fare matches the agreed amount in PKR	High	Pass
TC-DN-08	Return to Dashboard from Payment screen	Payment screen open	1. Tap 'Return to Dashboard'	Navigates back to Driver Dashboard; route cleared	High	Pass

15. Real-Time Chat

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-CH-01	Chat screen shows peer name in header	Chat screen opened from navigation or ride	1. Open chat screen	Peer name displayed in app bar	Medium	Pass
TC-CH-02	Empty message cannot be sent	Chat screen open	1. Leave message field empty 2. Tap Send	Message not sent; no empty bubble added	High	Pass
TC-CH-03	Sent messages appear on right side	Chat screen open	1. Type a message 2. Tap Send	Message appears on right with timestamp	High	Pass
TC-CH-04	Input cleared after sending	Chat screen open	1. Type and send a message	Text input field is cleared after send	Medium	Pass
TC-CH-05	Quick reply buttons send predefined messages	Passenger Chat screen open	1. Tap a quick reply chip (e.g. 'On my way!')	Predefined message sent and appears in chat	Medium	Pass
TC-CH-06	Driver greeting auto-seeded on load	Passenger Chat screen opened	1. Open Passenger Chat screen	Driver greeting message appears after ~600ms	Low	Pass

16. Passenger Profile & Edit Profile

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-PP-01	Profile screen loads with user data	Approved passenger logged in	1. Navigate to Profile screen	Name, photo, rating, and total rides displayed	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-PP-02	Ride history displayed on profile	Passenger has past rides	1. Scroll profile screen	Ride history list with dates, fare, driver name	Medium	Pass
TC-PP-03	Edit Profile navigates to edit screen	Profile screen open	1. Tap 'Edit Profile'	Navigates to Edit Profile screen with pre-filled fields	High	Pass
TC-PP-04	Save with empty name shows validation error	Edit Profile screen open	1. Clear name field 2. Tap Save	Validation error: name is required	High	Pass
TC-PP-05	Save with invalid email shows error	Edit Profile screen open	1. Enter invalid email 2. Tap Save	Validation error: invalid email format	High	Pass
TC-PP-06	Update profile photo from camera	Edit Profile screen open	1. Tap profile photo 2. Select Camera 3. Take photo	New photo shown in preview	High	Pass
TC-PP-07	Valid profile save updates Firestore	Edit Profile screen open	1. Update name 2. Tap Save	Data saved to Firestore; success toast shown; navigates back	High	Pass
TC-PP-08	Logout shows confirmation dialog	Profile screen open	1. Tap Logout button	Confirmation dialog: 'Are you sure you want to logout?'	High	Pass
TC-PP-09	Logout signs out and navigates to UserChoice	Logout confirmed	1. Confirm logout in dialog	Firebase signed out; navigates to User Choice screen	High	Pass

17. Driver Profile

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-DP-01	Driver profile loads with correct data	Approved driver logged in	1. Navigate to Driver Profile	Driver name, photo, rating, total rides displayed	High	Pass
TC-DP-02	Vehicle information card visible	Driver has vehicle info saved	1. Observe vehicle section on profile	Car model, color, plate number displayed	Medium	Pass
TC-DP-03	Edit Profile navigates to driver edit screen	Driver profile open	1. Tap Edit Profile	Navigates to Driver Edit Profile screen	High	Pass
TC-DP-04	Logout signs out driver	Driver profile open	1. Tap Logout 2. Confirm	Signed out; navigates to Login screen	High	Pass

18. Wallet & Transaction History

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-WL-01	Wallet screen loads with balance	Logged-in passenger on Wallet screen	1. Navigate to Wallet screen	Balance card with PKR amount displayed	High	Pass
TC-WL-02	Transactions tab shows transaction history	Wallet screen open	1. Tap Transactions tab	List of transactions with dates and amounts	High	Pass
TC-WL-03	Ride History tab shows past rides	Wallet screen open	1. Tap Ride History tab	List of completed rides with fares and driver names	High	Pass

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-WL-04	Add Funds button adds PKR 500	Wallet screen open	1. Tap 'Add Funds' button	Balance increases by PKR 500	Medium	Pass
TC-WL-05	Driver wallet shows earnings	Driver on Wallet screen	1. Navigate to Driver Wallet	Total balance and earnings displayed	High	Pass

19. Account Status – Pending / Rejected / Blocked

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-AS-01	Pending screen shows correct message	User with 'pending' status logs in	1. Login with pending account	Pending screen shows '24-48 hours' approval message	High	Pass
TC-AS-02	Rejected screen shows rejection message	User with 'rejected' status	1. Login with rejected account	Screen shows 'Application rejected' with contact support option	High	Pass
TC-AS-03	Blocked screen shows blocked message	User with 'blocked' status	1. Login with blocked account	Screen shows 'Account blocked due to violation'	High	Pass
TC-AS-04	Contact Support button navigates to support	Pending/rejected screen open	1. Tap Contact Support	Navigates to Support screen	Medium	Pass
TC-AS-05	Logout from status screen works	Pending/rejected screen open	1. Tap Logout	Signed out; returns to User Choice screen	High	Pass

20. Admin – Login & Dashboard

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-AL-01	Empty username shows validation error	Admin Login screen open	1. Leave username empty 2. Tap Login	Validation error: username required	High	Pass
TC-AL-02	Empty password shows validation error	Admin Login screen open	1. Enter username 2. Leave password empty 3. Tap Login	Validation error: password required	High	Pass
TC-AL-03	Wrong credentials show error	Admin Login screen open	1. Enter wrong credentials 2. Tap Login	Error message displayed	High	Pass
TC-AL-04	Correct credentials navigate to Dashboard	Valid admin credentials	1. Enter correct admin username and password 2. Tap Login	Navigates to Admin Dashboard screen	High	Pass
TC-AL-05	Admin Dashboard shows stat cards	Admin logged in	1. Observe dashboard	Total Users, Active Rides, Pending Verifications cards visible	High	Pass
TC-AL-06	Search bar filters users	Admin Dashboard open	1. Type name in search bar	User list filtered by search query	Medium	Pass
TC-AL-07	Admin bottom nav links work	Admin Dashboard open	1. Tap Drivers / Riders / Rides in bottom nav	Navigates to respective list screens	High	Pass

21. Admin – Driver Management

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-AD-01	Drivers list loads all drivers	Admin on Drivers List screen	1. Navigate to Drivers List	All drivers displayed with name and status badge	High	Pass
TC-AD-02	Pending tab filters pending drivers	Drivers List screen open	1. Tap 'Pending' tab	Only pending drivers shown	High	Pass
TC-AD-03	Approved tab filters approved drivers	Drivers List screen open	1. Tap 'Approved' tab	Only approved drivers shown	High	Pass
TC-AD-04	Search filters drivers by name	Drivers List screen open	1. Type driver name in search	List filtered to matching drivers	Medium	Pass
TC-AD-05	Tapping driver opens Driver Details screen	Drivers List screen open	1. Tap on a driver	Driver Details screen opens with all documents	High	Pass
TC-AD-06	Approve driver updates status in Firestore	Driver Details screen open	1. Tap Approve button	Driver status updated to 'approved'; navigates back	High	Pass
TC-AD-07	Reject driver updates status in Firestore	Driver Details screen open	1. Tap Reject button	Driver status updated to 'rejected'; navigates back	High	Pass
TC-AD-08	Block driver updates status in Firestore	Driver Details screen open	1. Tap Block button	Driver isBlocked = true; status updated in Firestore	High	Pass
TC-AD-09	Driver documents visible (license, CNIC, selfie, vehicle)	Driver Details screen open	1. Scroll through Driver Details screen	All documents and photos rendered correctly	High	Pass

22. Admin – Rider Management

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
TC-AR-01	Riders list loads all passengers	Admin on Riders List screen	1. Navigate to Riders List	All passengers displayed with name and status	High	Pass
TC-AR-02	Tab filters work (Pending, Approved, Rejected, Blocked)	Riders List screen open	1. Tap each status tab	List filtered per selected status	High	Pass
TC-AR-03	Tapping rider opens Rider Verification screen	Riders List screen open	1. Tap on a rider	Rider Verification screen with CNIC and selfie images	High	Pass
TC-AR-04	Approve rider updates Firestore status	Rider Verification screen open	1. Tap Approve	Status = 'approved'; navigates back	High	Pass
TC-AR-05	Reject rider updates Firestore status	Rider Verification screen open	1. Tap Reject	Status = 'rejected'; navigates back	High	Pass
TC-AR-06	Block rider sets isBlocked in Firestore	Rider Verification screen open	1. Tap Block	isBlocked = true in Firestore; status updated	High	Pass
TC-AR-07	Search filters riders by name	Riders List screen open	1. Type rider name in search	List filtered to matching riders	Medium	Pass

23. Terms & Conditions / Privacy Policy

TC ID	Description	Preconditions	Test Steps	Expected Result	Priority	Status
